EA Engineering, Science, and Technology, Inc. Announces Opening of Office in Ocean Pines, Maryland

Hunt Valley, Maryland (24 July 2007)—EA Engineering, Science, and Technology, Inc. (EA), a leading provider of environmental, engineering, and program/construction management services, announced today that it has opened an office in Ocean Pines, Maryland to support the growing demand for the firm's services throughout Maryland's Eastern Shore.

“The opening of the Ocean Pines office enhances our ability to deliver superior service to existing clients, as well as provide a platform to serve the diverse engineering and environmental needs of this growing region,” said Jon Brownstein, Ph.D., Vice President and Unit Director responsible for the Ocean Pines office. Added Michael Battle, Senior Vice President of Operations, “EA's presence in Worcester County provides our Eastern Shore clients with ready access to more than 225 Maryland-based professionals practiced in various engineering and scientific disciplines. These resources will prove invaluable as communities and businesses expand in this environmentally sensitive area of the Eastern seaboard.”

From its Ocean Pines location, EA will continue to provide municipal engineering and construction management services to Maryland's Eastern Shore, environmental compliance and permitting services to local industry and state agencies, and construction-phase services to residential and commercial developers and municipalities.

The new office location:
